\$1.50 Per Year

## The Town Council

There was a particularly large number of ratepayers at the town council chamber on Thursday evening last, when the mayor called the meeting to order with a full attendance of councillors, although Ald. Henderson remained but a few minutes.

After the usual reading and passing of the previous meeting several communications were read by secretary Corey and afterwards dealt with in the order in which they were read.

The first was a letter from J. J. Marshall asking \$125 for the work of making up the annual assessment for the current year. Several councillors expressed the opinion that this amount was too high for the service, while others questioned the matter. The mayor pointed out that the work this year would be much heavier than previously as the town had grown rapidly and the school assessment had to be included now with the town. After a little discussion a motion by Aldermen Beach and Leggat passed:

"That the finance committee be instructed to interview Mr. Marshall in respect to securing his services for assessing the property in the town for the year 1911, and to close with Mr. Marshall on best terms."

The letter read from John Haddin, chief engineer of the John Galt Engineering Co., of Winnipeg, who have charge of the installation of the Gleichen waterworks and sewerage system, intimated that he had caused to be inserted in the Canadian Engineer and Calgary newspapers an advertisement calling for tenders for the supply of pipes, hydrants, etc., with the tenders to be addressed to the Council, and stating that when they were opened he would advise the Council of the ones to be selected. He also advised that the Council advertise in the local paper for Portland cement, lead, hemp, gasket, gravel, sand, etc. Accordingly the motion by Aldermen Blackburne and Beach passed:

"That the secretary-treasurer be instructed to call for tenders for all materials as expressed in Mr. Haddin's letter."

Several accounts being submitted it was moved by Aldermen Leggat and Bray and passed:

"That the accounts be referred to the finance committee and if proved correct be paid."

The accounts were: G. W. Hunter, coal for fire hall, \$1.10; Western Municipal News, stationery supplies, \$58; The Call, by-law advts., \$51; Gleichen Trading Co., \$2.35.

Secretary-treasurer B. S. Corey's resignation being read, he was asked if he would not continue in office until a suitable person could be obtained. Mr. Corey agreed to this, explaining that his absence from town frequently interfered with his duties, and accordingly the motion by Aldermen Blackburne and Leggat carried:

"That the letter of resignation received from the secretary-treasurer be received and filed."

The motion by Aldermen James and Beach carried, although it brought forth considerable discussion. Ald. Henderson being absent all the councillors voted for it, save Ald. Blackburne:

"That the by-law authorizing the town Council to borrow the sum of \$2000 from the Canadian Bank of Commerce at Gleichen be deemed to have been read a first and second time."

## Indians and Liquor

The Gleichen justices of the peace who announced last week that, in future, they would give the full penalty of the law to all proved guilty before them of having sold liquor to Indians, are to be upheld by all the right-thinking citizens of this town and district, and it is to be hoped that the justices of the surrounding towns and villages will follow their example. If they do so it will be but a very short time until the practice is stopped entirely. In a chat with Corporal

Irvine the other day he stated that of the many cases he has handled there is not an instance where a white man was proven guilty of providing Indians with liquor, that they had done so to any great extent. He intimated that he did not think any of these men had made profit enough out of the sales to pay their fines. It, therefore, becomes evident that most of those who supply Indians with liquor do it for mischief, or perhaps when themselves under the influence of it. Of course, it may be the intention of some to carry on the business at a profit, and our police are too swift for them, and catch them before they have had time to reap a profit commensurate with the chances taken.

The death of the squaw Sarcee, a week ago ought to be a lesson to all who are foolish enough to supply the Indians and if they cannot see it in this light it is good to know that those who have the administration of the law do, and will use their utmost powers to stamp out the evil.

Everyone knows well the effect "firewater" has upon the Indians, and knowing it, it is indeed strange that any person can be found who will sell it to them. The death of this squaw may be said to be the direct result of supplying the liquor to her and her husband, as there is little doubt she would have reached home safely had she not partaken of the liquor.

## Wants it Gli-hen

Editor Bow Valley Call.

Dear Sir:—At the risk of incurring the editorial wrath I would venture to point out a somewhat glaring inexactitude that appears in a prominent place on the front page of your last issue. I refer to the correct pronunciation of the name of that rapidly rising town Gleichen, which, you inform your readers, is called after an English count and should be pronounced "Gli-ken"! Now, although Count Gleichen may reside in England, he and his name are of German origin (von Gleichen), and certainly no one of that nationality would call Gleichen "Gli-ken". As "ch" in the German language is never pronounced hard (like the letter k), but invariably soft (like the letter "h" at the beginning of such English words as "hand", "how", etc.) the correct pronunciation of the name Gleichen is therefore "Gli-hen", not "Gli-ken".

However, far be it to even suggest that the editor of the Bow Valley Call could make a mistake; possibly one of the compositors may inadvertently have picked up a "k" instead of an "h", which would account for it.

I am, dear sir,  
Yours sincerely,  
A. M. R. Aismith.  
Cluny, Feb. 20th, 1911.

## Firemen's Dance Tuesday

The fire laddies have decided to give the fourth number of their series of dances next Tuesday evening, February 28th. The boys are preparing to make this the best of all their dances—everyone knows that means much. The dance follows the big League hockey match between Bassano and Gleichen. This dance is for a good cause and no one can refuse to help the fire-fighters in their efforts to make the brigade proficient. Come and enjoy yourself and encourage the fire department.

J. A. E. Beaupre, after serving the people of this town and surrounding community with general merchandise for more than a quarter of a century past, is now retiring from the retail business. He will be greatly missed by his many friends and customers whom he has stood by at all times. Mr. Beaupre intends making his future home in Vancouver, B.C.

It would pay Calgary ladies to do their shopping in Gleichen. Mr. and Mrs. Frank Arrison of East Arrowood is happy over the arrival of a daughter on Monday, Feb. 20.

## United Farmers' Meeting

Minutes of the Gleichen Local of the United Farmers of Alberta held at the sample rooms of the Palace Hotel, Gleichen, Feb. 18th, 1911.

Upon roll call of officers the following were noted present: E. Griesbach, pres. J. E. Ostrander, vice pres. W. D. Trego, secy. and H. W. Lee, treas.

The minutes of previous meeting were read and corrected, and approved as corrected.

The following named persons were accepted as members: J. J. Peterson, M. Christensen, J. P. Nelson, N. Nissen, C. Rasmussen, J. T. Larsen, L. H. Larrissen, T. L. Anderson, N. Jensen, J. Jensen, W. R. Payne, and W. H. Goodwin.

The following members renewed their payments for the year: W. Robson, W. P. Evans, and N. N. Hayes.

\$3.00 were contributed to the Strathmore fund by W. R. Payne, H. Preswick and N. N. Hayes.

The meeting then listened to a short informal address by Vice-president W. J. Tregillus, of Calgary, who had a few minutes to spare while on his way from Queenstown, where he had been holding a meeting.

At the close of his address Mr. H. C. Hansen was introduced to Mr. Tregillus as the banner member for securing new members in this district.

A letter of Edward J. Fream was read in which he asked for suggestions as to the best manner to proceed to get new members and new local unions established.

The secretary then read his reply to same which was unanimously approved, and J. E. Ostrander offered a further suggestion that they also incorporate the Queenstown plan in addition to presenting our member, who receives the most members for the year, with the "Hustler's Button," he is also presented with a year's subscription to the Grain Grower's Guide, which was also adopted.

The letter of Henry Sorenson dealing with irrigation matters was read and discussed.

The union then adjourned until Saturday, February 25th.

## League Hockey Matches

(By W. H. McKie official reporter)

### Gleichen v. Bassano

On Friday afternoon a large crowd of hockey fans journeyed with the team to see the hockey game with Bassano. The result of the match was 5 goals to 2 in Bassano's favor.

A delay was again caused by the lights, to say the least, it is annoying to stand around in the cold for almost two hours, watching inexperienced workmen trying to repair the lights.

At 10:05 the puck was faced off with teams lined up as follows:

GLEICHEN	BASSANO
Arial	Goal
Davies	Point
Burke	C. Point
McKibbin	Flannigan
Newton	Rover
Turnbull	Boyer
Service	Irvine
L. Wing	McCleary

Gleichen scored after five minutes of play. The puck was again faced off and about two minutes later Bassano scored by a nice combination play. The play was around the Gleichen goal for sometime when Turnbull got away with the puck and Gleichen again scored. The score remained this way until one minute of time when Irving scored for Bassano. The half ended Bassano 2 goals, Gleichen 2 goals. In the second half Bassano played a good combination game and scored three goals the match ended with Bassano 5 goals and Gleichen 2 goals.

By defeating the Gleichen team Bassano is now a tie with Gleichen for the McArthur cup. The stand-off of the clubs are as follows:

Won	Lost	Tie	To Play
Bassano 3	2	1	2
Gleichen 4	2	1	1
Strathmore 2	5	0	1

It is reported that the Bassano

Hockey Club are chartering a special train on Tuesday the 28th, inst., when Bassano and Gleichen meet to play the deciding game of the League. Already people are speculating as to the outcome, and it is needless to say that the Gleichen team will win the McArthur cup if at all possible.

### Strathmore v. Gleichen

Tuesday night the Strathmore Hockey Team came down to Gleichen to play.

The first half of the game was decidedly in favor of the home team the scoring being 5 to 1 in their favor. Strathmore opened the scoring with a good shot, which seemed to waken our boys a little. Gleichen then put on five in rapid succession.

The second half was notable for the complete falling off of the Gleichen team. Whether they took things too easily, or played too much defence matters little, their hockey in this half was deplorable. Strathmore taking advantage of this condition managed to get 3 goals, and in another five minutes would have won the game, is the opinion of many.

Great praise is certainly due to the goal tenders of each side, who stopped some great shots, outside these two men no man could be said to have done anything great.

It certainly behooves the Gleichen team to take a tumble to themselves if they want that cup; for by Tuesday's play they are certainly not worth it, and Bassano will give them all they can do next Tuesday.

The executive would certainly like to see a good attendance of fans next Tuesday when Bassano plays the last game of the season, as it is understood that Bassano people have chartered the C.P.R. for that date bringing their cow bells along.

## Bowling Match

### Bassano v. Gleichen

Friday last a team of Gleichen bowlers journeyed to Bassano to try conclusions with the "spherical" hurlers of that burg. Much interest was manifested in the contest and as the games progressed the excitement ran riot; but the Gleichen team proved themselves to be the master exponents, and won out by 111 pins in three games. Following are the scores and names of Gleichen team:

BASSANO	
Total	756 643 776
GLEICHEN	
J. Smith	169 180 137
W. H. James	130 170 158
G. Moss	176 213 149
H. Koestling	138 114 140
J. Daldorp	147 117 188
Total	760 751 772
Grand totals—Gleichen, 2387; Bassano, 2275.	

### Strathmore v. Gleichen

A very friendly match between the bowling "knights" (and others) of Strathmore and a Gleichen team was played on Ed. Urich's alleys on Tuesday night. There were no sensational scores as the players were "too full of good humor." The local team won by 281 pins. Following are the scores:

STRATHMORE	
A. Knight	121 124 151
McAuley	168 153 130
Keloe	114 113 138
Price	118 91 96
W. Knight	149 101 112
Totals	700 585 627
GLEICHEN	
J. Young	112 147 141
J. B. Leggat	163 174 140
E. Urich	107 111 171
C. Padley	173 129 152
W. H. James	131 127 179
Totals	692 718 783
Grand totals—Gleichen, 2195; Strathmore, 1912.	

Galerin Jack, representing Swift and Co., yesterday shipped three carloads of cattle, which he obtained from Chris Bartsch.

T. P. McHugh left for Ottawa Sunday where he will holiday for a while.

## Board of Trade Annual Meeting

The annual meeting of the Gleichen and District Board of Trade will be held in McKie & Henderson's office on to-morrow (Friday) evening, when a large amount of other business will be transacted. It is requested that every one who has the interests of the town and district at heart make a special effort to be present, as important matters are to be discussed that will mean a great benefit to all. It is hoped at this meeting to thoroughly reorganize the board and make of it the most useful organization we have.

## Public Men And The Newspapers

Recently there has been quite an epidemic among public men to sue newspapers for libel and the result of the various actions brought has indeed been discouraging for these gentlemen. In this connection it may be interesting to quote the following:

In dismissing the \$10,000 libel suit brought by R. T. Telford, M. L.A. of Leduc, against the Calgary Herald, Mr. Justice Harvey laid particular stress on the old truth that men who enter public life must cultivate an external membranous integument of elephantine non-sensitiveness.

"Pay the Piper," was the caption of an editorial appearing in the Herald issue of June 25, 1910. In the course of the article reference was made to a bet offered by Mr. Telford on the floor of the house in March of \$500. And the portion of the matter alleged to be libelous was the sentence:

"The unbiased convictions of the honorable member for 'Ponoka' will be reinforced to the extent of another \$500."

Correction was later made that "the honorable member for Leduc," not "Ponoka" was the person referred to.

The wager was offered in the house by Telford during the A. & G. W. discussion when he challenged Mr. Cushing to an electoral contest on the merits of the A. & G. W. policy of Mr. Cushing.

Mr. Telford alleged that the position of the editorial quoted inferred that he was being influenced by money in the discharge of his duties as a public man.

Defendants' counsel did not put in any evidence. Mr. Telford stated in his deposition that the editorial references to him which followed a certain sensational bet that was offered by him on the floor of the legislature at Edmonton last March, had held him up to ridicule, had injured his standing as a public man and had placed him in a compromising position with his friends. Mr. Telford's solicitors, J. Munro, swore that he had read the articles alleged to have contained the libel, and believed it to be of a nature to injure Mr. Telford. Its effect, he said, could not but be ridiculous to the plaintiff. The articles were, as well, injurious to the character of the plaintiff J. Munro stated.

Justice Harvey's summing up bore a warning to all men who go into politics. He said in part: "When people go into public life, they must expect that newspapers will say things about them which will not be pleasant, and if they do acts which subject them to ridicule they cannot complain if they are held up to ridicule, they cannot complain if they are held up to ridicule to that extent. This does not refer, to my mind, to the plaintiff's private character, but simply to a public man in a matter of public interest. The action will be dismissed with costs."

Costs in the case amount to over \$500, to be borne, of course, by Mr. Telford.

Mrs. H. Taylor begs to inform her many friends and customers that she does not take in alterations and sometimes a refusal causes offence. Mrs. A. E. Jones left for Calgary Monday to spend a week with friends.

## THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., PRESIDENT  
ALEXANDER LAIRD, GENERAL MANAGER

CAPITAL - \$10,000,000 REST - \$7,000,000

**FARMERS' BUSINESS**  
The Canadian Bank of Commerce extends to Farmers every facility for the transaction of their banking business including the discount and collection of sales notes. Blank sales notes are supplied free of charge on application.

## "LAURIER," which will be owned and operated by the C

THE "CHATEAU LAURIER," which will be owned and operated by the Grand Trunk Railway, is now fast approaching completion, and will, without doubt, be the finest hotel on this continent yet built.

Besides the ordinary entrance to the "Chateau" from the street, it will be connected with the Grand Trunk Railway's new Central Union Passenger Station by a private passageway.

Mr. H. H. Morgan, who has been in the city for twenty years, being the manager of the Banff Hotel, at Banff Springs, Alta. Mr. Hergman, though a young man, has had a wide range of experience in hotel management, having been in charge of the Hotel de Ville, in Montreal, and the management in Canada. He started his career in London, Eng., with Spiers and Pond, in 1883, at which time the firm was the most prominent of caterers in that city and operated all the best restaurants there.

Mr. Hergman was in London for some time, and then came to New York to follow his vocation in America. His first position was at the Hotel de Ville, New York, where he remained for some time, and then he was transferred to the Hotel de Ville, New Orleans, where he remained for some time. He then went to Louisville, the "New Florence" hotel at Birmingham; and the "Casto Gaur" hotel in the Shastic Mountains.

Mr. Hergman's personal and popularity with the travelling public has been a great factor in his success during the past, and it is predicted that his management of the new hotel "Chateau Laurier" will

## Value of Laughter

A famous doctor once said, "Encourage your child to be merry and to laugh aloud; a good, hearty laugh expands the chest and makes the blood pound merrily along. Commend me to a good laugh—not to a little, sniggling laugh, but to one that will sound right through the house; it will not only do your child good, but will be a benefit to all who hear, and be an important means of driving the blues away from a dwelling. Merriment is very catching and spreads in a remarkable manner, few being able to resist the contagion. A hearty laugh is delightful harmony, indeed, it is the best of all music."

## Burn Caused Open Sore

Zam-Buk Worked a Wonderful Cure.

Sometimes a bad burn, a deep cut, or some similar injury sets up a more permanent injury, in the form of an open discharging sore. In such cases Zam-Buk will be found of unequalled value.

Mr. J. Nixon, of 901 William Ave., Winnipeg, a blacksmith at the C.P.R. shops, had his foot badly burned by some molten metal falling upon it. He says: "The burn was a very bad one, and after the first few days it left an open sore, which showed marked signs of blood-poisoning. It discharged freely and caused me terrible agony. For three weeks I suffered acutely and could get no ease. At last I obtained a preparation from the doctor, which seemed to stop the discharging and made me quite hopeful, but finally the wound became as bad as ever."

"I was then advised to use Zam-Buk, and from the first application the balm gave me relief. The inflammation was thoroughly checked, and the poisonous matter cleared away in a very short time after beginning with Zam-Buk. Healing then began and in less than two weeks the wound was thoroughly healed."

One of the main lessons of this case lies right here—try Zam-Buk first for any injury, sore, skin disease or wound. It is equally good for piles, blood-poisoning, festering wounds, chaps, cold sores, children's eruptions, scalp sores, varicose ulcers, chilblains, etc. All druggists and stores sell at 50c. box or post free from Zam-Buk Co., Toronto, upon receipt of price. You are warned against harmful substitutes and inferior preparations, which yield a bigger margin of profit and are sometimes pushed as being "just as good. Nothing is just as good."

Tourist—"I don't see any windmills here any more."

Zuyder Zee Sam—"We had to chop 'em down—they disturbed the aeroplanes."

How a man does swell up when his opinion turns out better than yours! Some tombstones inscriptions are too good to be true.

## MILLION ACRE FARMS.

Strange Origin and Improvement of Australian Merinos.

C. E. W. Bean, of Sydney, has written in an Australian paper of the great sheep industry. His story is in part as follows:—

A century ago, when Australia was a dumping ground for England's surplus, a British fleet received from a Spanish fleet a present of merino sheep, at a time when to export merinos from Spain was a criminal offence. The little flock reached Australia, and from it are descended the hundred million merinos which have made Australia great and wealthy, despite her small population.

Vastly improved is the modern merino, for the original of 3-1/2 pounds to fleece has been raised to 12 pounds, and there are rams in Australia which shear 40 pounds.

Nowadays the good land near the coast is being given over to agriculture, and the sheep are driven back further into the desert. A terrible desert it is at times, where not one green leaf can be seen, when the red dust with which it is covered gets blown away—and only the bare hard bones of the earth are left. Then sheep die by the million for want of the smallest scrap of nourishment, and are sometimes killed by the thousands because it is hopeless to expect to keep them alive.

Then comes the rain, and as if by a miracle the whole land is green again, the flocks increase out of all bounds, and the men who have been nearly ruined, make new fortunes in a few years. That is happening now. From 1896 to 1903 occurred the biggest drought known, and many stationholders lost their all. Since then there has been a steady succession of good seasons and the problem now is what to do with the enormous surplus of old ewes. Such are the vicissitudes of that strange land, the oldest part of the earth's exposed surface.

Some of the great sheep runs cover a million acres, or about 1,500 square miles. Each run is divided into paddocks, which cover all Australia. The average western paddock contains 100 square miles. If one fence is on the horizon behind, the other is over the horizon ahead. You could walk till you died in that paddock without seeing a fence. Lost men have before now found the fence and died alongside of it before it led them anywhere.

There may be a hut in each paddock with a boundary rider—sometimes two, living together. Every day except Sunday, the boundary rider is expected to be out in his paddock. About one day in two he may spot something like a line of posts, which is probably a line of sheep in mirage on the horizon. Occasionally he cuts through a wing of them. He sees a man, or gets a mail, perhaps, once in three weeks. And yet, the boundary men get to like the lonely life.

Then, there is "the boss," the lord of many acres, a man of strong character and a liberal education, living a life not unlike that of an English country gentleman, in his remote home, but carrying on his work with the ability and keenness of a man who has been trained in business.

The third body of men who live by the sheep industry are the shearers, who work through the country from north to south, making plenty of money, and living in a rough way on the fat of the land as they pass from one shed to the other. They are a class unlike any other.

## The Policeman's Dangerous Life.

About one in every six London policemen is injured during the year. More than one thousand men were on the sick list from injuries received while on duty, and nearly seven hundred more who were injured off duty. Some of the cases were so serious as to disable the men for a week or more, and these amounted to no fewer than 677. Besides these, there were twice as many injured less severely, who were not placed on the sick list.

The following examples show the multiplicity of dangers to which the police are exposed: 2,266 men were assaulted or injured when making arrests; 102 bitten by dogs; 51 hurt by persons not arrested; 17 injured while dispersing disorderly crowds; 44 hurt, some very severely, when stopping runaway horses; 21 injured when assisting fallen or rearing horses; 25 kicked, trodden on, or knocked down by horses; 31 injured (14 very severely) by vehicles when regulating traffic; and 28 were injured when extinguishing fires.

And a further large number suffered injury by their horses falling or throwing them, by cyclists, while riding their own bicycles, at fire drills, by slipping and falling when examining premises, etc., so that the total of injuries while on duty for the year is brought up to 3,310.

## An Honest Man.

A preacher near Bloomstury, Eng., grew fervent in exhorting to an honest living, and near the close of his sermon he said: "Let every person in the house who is paying his or her debts stand up." Instantly every man and woman in the house, save one, was standing. After they were peacefully seated, the domini asked: "Now let those stand up who are not paying their debts," and a long lean man of sixty or more years, clothed in a seedy suit of the past decade, slowly assumed a perpendicular position in his pew. "How is it, my friend," enquired the minister in a austere tone, "that you are the only one in this intelligent congregation who does not meet his obligations?" The lanky individual meekly answered, "I run a newspaper, and the brethren here are my subscribers, and"—the minister broke in abruptly with, "We will close with the benediction."

## Tobacco For British Smokers.

More tobacco is apparently being smoked, for in November 3,210,998 pounds were cleared for home consumption, the largest quantity for one month under normal conditions. Since April 61,359,318 pounds have been cleared, as against 57,596,911 pounds last year.—Tobacco Trade Review.

REMEMBER

**PISO'S**

for COUGHS & COLDS

## Among the Freaks

"I wonder," growled the Circassian beauty, "why the manager always comes to see me when he is drunk."

"Probably thinks you're a snake charmer," chorled the ossified man.

## PILES CURED IN 6 TO 14 DAYS

Your druggist will refund money if PAZO OINTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

All the things in her life a woman would like to put away with her bridal bouquet would fill a warehouse.

## Minard's Liniment Cures Garget in Cows

When a woman tells a man that he is nice looking it's a sign he believes her.

It Testifies for Itself.—Dr. Thomas' Eucalyptic Oil needs no testimonial of its powers other than itself. Whoever tries it for coughs or colds, for cuts or contusions, for sprains or burns, for pains in the limbs or body, will know that the medicine proves itself and needs no guarantee. This shows why this Oil is in general use.

## No Hope for Him

Visitor—"Don't you think it possible that a pardon may be procured for the poor man? His offence was not great, and further confinement will kill him."

Warden—"I'm afraid it is impossible. The crime he committed was not sufficiently atrocious to interest the public in his case."

## MAKE TEETHING PAINLESS

Teething time is always a time of anxiety to mothers. At this time baby becomes cross, restless and nervous. His gums pain him, he is troubled with constipation or diarrhoea, spasms, colic or convulsions. His little life is in danger unless a medicine is given him to keep his stomach sweet and pure and his bowels regular. Such a medicine is Baby's Own Tablets. Nothing can equal them during the teething period. They have lessened the worries of thousands of mothers. Among them is Mrs. W. A. Yeardon, Halifax, N.S., who writes:—"I have used no other medicine for baby but Baby's Own Tablets and I would not be without them. Last summer baby was greatly troubled with his teeth until I gave him the Tablets. They helped him and now he is a big healthy child." The Tablets are sold by medicine dealers or at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

"So Stockbug has been on the street, has he? What is he speculating on?"

"Just at present, I believe, he is speculating on how much longer he will be on the street."

## What Would Be Left?

An education authority sub-committee was examining a class in a school. One of the members undertook to sharpen up the scholars' wits by putting the following question:—"If I had a mince pie and gave two-twelfths to Harry, and should keep half the pie for myself, what would be left?"

There was a profound study among the boys, but finally one had held up his hand as a signal that he was ready to answer.

"Well, sir, what would there be left? Speak aloud, so that all can hear," said the committee man.

"The plate!" shouted the hopeful fellow.

He was excused from answering any more questions.

Minard's Liniment Cures Colds, etc.

Ignorance always seems to think that the knowledge which disagrees with it is just prejudice.

A bottle of Bickle's Anti-Consumptive Syrup, taken according to directions, will subdue a cough in a short time. This assertion can be verified by hundreds who have tried it and are pleased to bear testimony to its most efficacious use. It costs you only 25 cents to join the ranks of the many who have been benefited by its use.

"Man," said the tailor, sadly, "is we read, made of dust, but I cannot see how that is so. Dust always settles. Man rarely does."

**Shiloh's Cure**

Reliably stops coughs, cures colds, hoarseness, throat and lungs. 25 cents.

To ever, how vain! On, onward strain, Brave barks! in light, in darkness too! Through winds and tides one compass guides— To that and your own selves be true.

An Easy Pill to Take.—Some persons have repugnance to pills because of their nauseating taste. Parnelee's Vegetable Pills are so prepared as to make them agreeable to the most fastidious. The most delicate can take them without feeling the revulsion that follows the taking of ordinary pills. This is one reason for the popularity of these celebrated pills but the main reason is their high tonical quality as a medicine for the stomach.

## The Way of It

"We will never give up," said the South American military leader.

"Give up what?" asked the coldly practical man.

And after a moment of reflection the military leader candidly replied:—"Anything we can get our hands on."

—Washington Star.

## A ROMANTIC FARM.

Sandwich Golf Club Has Bought the Prince Homestead.

The town of Sandwich has long been distinguished as a place of beauty as well as for its historical interest, and one of the most lovely, as well as the most interesting spots in the vicinity has been secured for the new golf and country club, in which many men from Windsor and Detroit are interested. The Oak Ridge Golf Club was formed some ten years ago and had a nine-hole course on rented property below Sandwich, but as a long lease could not be obtained it was decided to give up this property and purchase grounds where permanent improvements might be made with some confidence that such expenditure would not be wasted. With this in view an option was secured on fifty-six acres of the Park Farm, and a stock company was incorporated and sufficient stock subscribed to purchase this property and provide funds to make a good start towards laying out a golf course and fitting up a clubhouse. The credit of originating this scheme and successfully carrying it through is due to Mr. R. M. Morton, and shareholders are congratulating themselves on having made such a good purchase, for in a few years this property will be worth double the money expended.

This venture will alter one of the most romantic places in western Ontario, for Park Farm was long ago the home of Col. John Prince, conspicuous for his forceful conduct during the Patriot rebellion in 1838, and particularly that part of it which culminated in the battle of Windsor, where, as Col. Prince's official report states, "of the brigands and pirates twenty-one were killed, besides four that were brought in at the close of the engagement, all of whom I ordered shot, and it was done accordingly." This was certainly a drastic measure, and a military council looked into the matter and it was discussed in the Imperial Parliament, where the great Wellington himself spoke in behalf of Col. Prince, declaring that the circumstances required vigorous treatment; that no mob should be allowed to enter a country and march against unprotected citizens without being severely dealt with. Certainly the shooting of these prisoners cleared Essex County of those styling themselves Patriots.

The coming of John Prince to Sandwich was an event in its history, for he introduced foreign tastes and a flavor of the English gentleman of leisure. He had been a barrister in Gloucester, England, and came to Canada in search of change and sport. It mattered little to him where he settled, so long as game was abundant and the company congenial. These conditions being fulfilled in Sandwich, to Sandwich he came in 1834, accompanied by his wife, three sons, five English servants, and a box of golden guineas so heavy two men were required to lift it. Two years later he had a baronial manor, to try farming, so Prince looked about him, and finally purchased a beautiful piece of rolling land directly behind Sandwich. He stocked the farm with thoroughbred cattle imported from England, built a house, and placed his retainers on the land. The woman, however, was an expert cook, and, tiring of country life, she and her husband established themselves in a hotel in Sandwich, where for years their house was famous for old English comfort and the excellence of its dinners.

Prince then decided to occupy Park Farm himself. He added two large wings to the house, and turned it into what he called a shooting-box. He made the grounds beautiful with hedges, gardens and miniature lakes, he imported peacocks and other game in the natural woods adjoining. When he and his family were settled in Park Farm his hospitality knew no bounds; the house was soon filled with sportsmen, and the stables with their horses. Prince spent money lavishly, and was never known to refuse a loan nor take a note for security.

## An Unprofitable District.

Two very interesting reports on portions of the Northwest Territories, southwest of Hudson Bay, have just been issued by the Dominion Geological Survey. They are of especial value to Ontario, on account of the fact that the region concerning which they give information is that part of the unorganized Northwest Territories, formerly part of the district of Keewatin, which Ontario is so strenuously endeavoring to have added to its area.

Judging from both reports there seems to be little prospect that the province will gain a region in which may be found any valuable economic minerals in paying quantities. Even if the difficulties of transportation are overcome, it is very doubtful whether the mineral found would repay working.

## Big Chiefs.

It isn't necessary to go to Graustark to find a snug, independent principality and its ruler.

"Big Chief" Elliott of the Six Nation Indians, who dropped in upon a Toronto newspaper, rules over a domain, namely, the reserve near Brantford. It is a 16 by 9 miles kingdom.

The chief is a natural orator, with a gift of eloquence, which observers say, held Sir James Whitney spell-bound when the chief spoke with the deputation of patriots recently. "Big Chief" has a fluency which must be heard to be appreciated, and a vocabulary a Boston professor would envy. He is also a color-organizer in the 37th Regiment.

## Not to Be Forgotten.

"I say, do you think much of Black?"

"I do unfortunately; he owes me a ten spot."

## Abdominal Surgery.

Abdominal surgery first was attempted in France in the fourteenth century.

**AFTER DOCTORS FAILED**

Lydia E. Pinkham's Vegetable Compound Cured Her.

Toronto, Canada.—"I shall endeavor to describe to you how I felt before I began taking Lydia E. Pinkham's Vegetable Compound. I scarcely knew what it was to be well. I had awful bearing-down pains and usually before my monthly periods I suffered terribly and had to go to bed. I was not able to walk across the floor the pain was so bad. I doctored for a long time, but the doctor's treatment did not do me any good. I gave up all hopes of ever being well again until one day my husband saw the Compound advertised in the paper. He decided to get me a bottle, and I am thankful he did. I had not taken one bottle before I began to feel better, and I kept on taking it until now I am a different woman. It also helped me during maternity and childbirth. I can thoroughly recommend your Vegetable Compound to any woman who is afflicted with female troubles."

Mrs. J. M. TWEDALE, 188 Nassau St., Toronto, Canada.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, inflammation, ulceration, fibroid tumors, irregularities, periodic pains, backache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration.

**REST AND HEALTH TO MOTHER AND CHILD**

Mrs. Winklow's Soothing Syrup has been used for over SIXTY YEARS by MILLIONS of MOTHERS for their CHILDREN WHILE TEething, with PERFECT SUCCESS. IT SOOTHES THE CHILD, SOFTENS THE GUMS, ALLEVIATES PAIN, CURES WIND COLIC, and is the best remedy for DIARRHOEA, and is wholly harmless. Be sure and ask for "Mrs. Winklow's Soothing Syrup," and take no other kind. Twenty-five cents a bottle.

**RAILROAD EMPLOYMENT**

Positions Guaranteed Competent Men MEN WANTED—Age 18 to 35, for Firemen \$100 monthly and brakemen \$80, on all Canadian Railroads. Experience unnecessary. No strike. Promotion to Conductors or Engineers, \$150 to \$250 monthly.

**Shoes that Combine**  
Both Style and Fit

Few men wear clumsy, badly made, ugly shoes from choice. They may say that they prefer them to shoes that are handsome and stylish—but do they?

Most men wear ugly shoes simply because they have an idea that they're the only comfortable shoes made.

And also because they have never worn INVICTUS shoes.

We have INVICTUS shoes in the newest 1910 styles which will fit every line of your foot easily, comfortably and snugly.

Remember the soles of all INVICTUS shoes are made of genuine rubber—sole leather—the most durable sole leather there is.

## THE BOW VALLEY CALL

Published Every Thursday in the heart of a Wonderful Rich Ranching and  
Farming District.

Subscription, \$1.50 a Year; Foreign countries, \$2.00.  
Exchange must be added on checks.

Legal Advertising 12 cents a line for first insertion and 8 cents a line for each subsequent in-  
sertion—12 lines to the inch. Locals 10 cents a line. Lost, Found, Assay and Want adver-  
tisements 50 cents one insertion or three insertions for \$1. Display ads, \$1 per column inch  
per month. Changes should reach this office not later than noon each Monday.

W. PARK EVANS,

Publisher and Proprietor.

Gleichen, Alberta, February 16, 1910

### TOWN AND DISTRICT

Soon the Call will enter on its  
fifth year of publication and we  
would respectfully remind our sub-  
scribers that the annual assessment  
becomes due, and a look upon their  
collateral will be appreciated.

The Call is always pleased to re-  
ceive notice of social local events,  
but must not be expected to know  
of every little incident as this town  
is growing rapidly. Send them  
along early in the week.

Too many people appear to im-  
agine The Call can print any and  
everything brought to this office on  
Wednesday of each week. For their  
benefit we may say that such is not  
the case as we usually have our type  
ready the evening before, owing to  
the fact that it takes nearly a full  
day to print The Call and have it  
ready for the mail Thursday morn-  
ing. Kindly remember this and  
send in information early in the  
week. We are fast approaching the  
1000 mark and any one who cares  
to drop into this office Wednesday  
afternoon can see for themselves the  
vast amount of work that we must  
accomplish in one day.

Mr and Mrs Jowett entertained a  
number of young people at their  
home last Thursday evening most  
hospitably, the occasion being the  
birthday of Mr. Jowett, jr.

Mrs. Dr. Jackson, of St. Thomas,  
Ontario, has been visiting her brother,  
W. W. Brown, at his ranch on  
Bow river, for a short time, and has  
left to spend sometime in British  
Columbia.

One evening last week Mr. and  
Mrs. A. Maisey entertained a num-  
ber of their young friends at their  
home with a most enjoyable party,  
where games and other amusements  
were indulged in and a very dainty  
luncheon served.

The bustling town of Gleichen has  
two things to congratulate itself up-  
on, either of which would have been  
sufficient to make most places get up  
on the top rail of the fence and crow.  
The first debentures offered by the  
town were snapped up by Toronto  
capitalists at \$1.01 and a splendid  
flow of natural gas has been tapped  
that throws the Mad Hatters into  
contortions of envy. Good for Gleichen.  
—Macleod Advertiser.

Edward Wade states he shipped a  
carload of horses last week to Win-  
nipeg, consisting of 23 head of mares  
and geldings. They comprised a  
particularly fine bunch and sold for  
a good figure. Mr. Wade says he  
shipped three carload of horses last  
year to the same people and it be-  
comes evident to him that they were  
all satisfactory.

What is the greatest cause of un-  
rest? was the subject of a lecture  
south of town the other night. The  
married men in the audience an-  
swered the interrogation in unison  
chorus, "A squalling baby."

The experience of Sir Bill Mac-  
Kenzie, who put his cash under his  
pillow when he went to bed and  
forgot it next morning, teaches us  
that it is poor policy for a man to  
retire on his money.

An old maid has just died in  
Duluth who admitted that she was  
106 years old. She must have been  
a wonderful woman, for in our long  
and varied career we have never  
met an old maid who was not  
more than 23 last birthday.

The power of hate may kill, and  
the power of love has been known  
to call the dead back to life. Love  
as a restorer of life and health is  
more powerful than all the drugs on  
earth, and it is the universal  
panacea for ills that the true phy-  
sician employs.

All the girls in Canada claiming  
the name of Mary, or any of its  
variants, are requested to send their  
signatures and a donation of from  
five cents to \$5 to Mrs. J. McCut-  
cheon, of Calgary, to be presented to  
Queen Mary at the Coronation.  
Now, get busy Mary's and let the  
Queen see your autograph and look  
upon your collateral.

An ozonogram from the south  
states Austin has a new girl and the  
indications are, some bachelors are  
envious.

Vincent Harold of Seattle, Wash-  
ington representing the Washburn  
Crosby Milling Company, Minnea-  
polis, is making a special trip of the  
West. He thinks that the proposed  
reciprocity agreement will have the  
effect of greatly improving the com-  
mercial conditions between the  
United States and Canada, and that  
the Canadian wheat trade with the  
United States will, within a few  
years, be enormous.

The Calgary Industrial Exhibi-  
tion officials are continually on the  
lookout for special features for the  
exhibition which will be as instructive  
as interesting and an effort is  
being made at the present time to  
secure a large mono-rail model car  
for the coming year's exhibition.  
This car is forty feet long and runs  
on a large cable and is in great de-  
mand. It is not yet certain whether  
it will be available at the time of  
the exhibition or not. If available,  
however, it will form a most in-  
structive novelty feature of the 1911  
show, and in the event of the fair  
being successful in securing it, it  
will be the first time that a mono-  
rail car has been exhibited in Cana-  
da. The model is now being made  
for the annual convention of the  
Railway Appliance Association of  
Chicago, and is to be a special fea-  
ture of their coming exhibition.

### Indian Inspector and Agents Win

Government Want Indian Exhibition  
Discontinued

The work of Indian Inspector  
J. A. Markle has prevailed with the  
Dominion Government, and the  
department of Indian affairs at  
Ottawa is now endeavoring to in-  
duce the exhibitors to do away with  
these features. The letter sent out  
to the exhibition managers asks  
that the shows given by the Indians  
be cut out, but there is no desire to  
oppose the exhibition by the In-  
dians of their crops, handicraft, or  
of their attending exhibitions as  
spectators.

All who understand the Indians  
thoroughly will be pleased to learn  
that the government has taken this  
stand, as they are aware of the evil  
these shows have done the Indians  
in the past. Know, also, how they  
have wasted their time and money  
at the season of the year when they  
have the best opportunities to earn  
a livelihood, and their services are  
most required by the white men.

The Call congratulates the Indian  
inspector and the agents upon their  
successful efforts in this, as they  
were bitterly opposed, and now  
they can well claim to have won  
the contest for which they have  
striven so hard and long.

### Boy Scout Officers

The Boy Scout organization in  
Gleichen promises to be most suc-  
cessful. The boys about town are  
very anxious to get to work and  
learn the many useful lessons they  
have been promised. The older  
people are also taking an interest  
in this movement and believe much  
good will be done. The Call's re-  
port of the first meeting was con-  
firmed much more than we would  
like to have seen it owing to lack of  
space, and we here append a list of  
the officers elected.

President, Mayor Rose  
Vice Presidents, Corporal Irvine,  
F. H. Blackbourne and J. E. Os-  
trander, J. P.  
Chairman, J. W. Jowett  
Chaplin, Rev. Mr. Rennie  
Secretary, Rev. Gedding  
Treasurer, J. Snell  
Scout Master, Dr. Farquharson  
Asst. Scout Master, A. M. Con-  
krite  
Delegates to Provincial Council,  
Rev. Dr. Wilson of Strathmore,  
Rev. Mr. Loversedge of Bassano,  
and Messrs A. D. Shore and J. W.  
Jowett of Gleichen.

Members of Council: Messrs.  
Hurd, Rawnley, Vigar, Jowett,  
Fearman, James, Rowe, Hughes,  
Gooderham, Bach, Nottter, W. R.  
McKie, Abel, Capt. Ward and Rev.  
Mr. Mitten.

When her child is in danger a woman  
will risk her life to protect it. No great  
act of heroism or risk of life is necessary  
to protect a child from croup. Give  
Chamberlain's Cough Remedy and all  
danger is avoided. For sale by all deal-  
ers.

How to cure cold is a question in  
which many are interested just now.  
Chamberlain's Cough Remedy has won  
its great reputation and immense sale by  
its remarkable cure of colds. It can al-  
ways be depended upon. For sale by  
all dealers.

Sedentary habits, lack of outdoor  
exercise, insufficient ventilation of build-  
ing, a torpid liver, worry and  
anxiety, are the most common causes of  
stomach troubles. Correct your habits  
and take Chamberlain's Stomach and  
Liver Tablets and you will soon be well  
again. For sale by all dealers.

## PROVINCIAL NEWS

## New Industry in the Hat

A site has been secured in Medicine Hat for a new industry to be known as the Alberta Linseed Oil and Paint Company. The company will erect a plant costing \$50,000 and will employ over 30 men to begin, increasing to about 50. Calgary capital is invested in the concern. It is the intention of the company to carry on a large jobbing business, in addition to the manufacture of oil and paint.

## Air of Alberta has More Oxygen to the Molecule than any Country in the World

The secretary of the Board of Trade, has received a pathetic letter from a Mrs. Starbuck, London, Eng. who writes that her husband is successfully engaged in the canning industry in that city, but that on account of tendency towards lung trouble, he has been advised to leave England at once. She further states that she is advised that Alberta is an ideal place for up-building weakened constitutions.

A prominent physician, when interviewed regarding this statement said:—"There is no place in the world so beneficial to lung diseases as the climate to be found in Alberta. The air is dry and, in many respects, like sea air. The atmosphere of this province, has more oxygen to the molecule than any other place in the world; it is much better than Egypt, which used to be considered the very best to be found anywhere."

## Gleichen and Bow Island Gas Wells.

"From the Athabasca River on the north to the 49th parallel on the south and from the Rocky Mountains eastward for three hundred miles, Alberta is underlaid with gas bearing rock," says A. W. Dingman, of the Calgary Natural Gas Company. The gas is found, for the most part, in rock formations at a depth varying from 1000 to 3000 feet. The company is putting down a well at Gleichen, which was begun at the first of the year. At Bow Island there is already a good well and two others are being put down. Mr. Dingman said that between 1,000,000 and 5,000,000 cubic feet a day of gas makes a good commercial well, and it is expected that natural gas will be used for business purposes almost exclusively.

## Calgary Bank Clearings

Calgary stood sixth in the Dominion for bank clearing records during the week ending Thursday, February 9th, with a total of \$2,722,009 to her record.

## Good Outlook for Winter Wheat

Adam Link, Government inspector of homesteads in the Lethbridge district, says: "Prospects for fall wheat yielding good crops here never looked better and the people in the south seem to be of that opinion unanimously. Old timers claim that the heavy snowfall this year has been the salvation of the crops; that the frost and snow of last month will provide moisture for a long time to come without rain. There is an excellent class of settlers in Southern Alberta of the kind who may be called superior. They are the class determined to go ahead; they regarded last year's dry spell as a circumstance which might happen in any community, and are not in the least alarmed about it. This year there will be a larger area than ever before under cultivation. Practically no homesteads are being vacated, those who have one realize they have a good thing."

## Alberta will Grow Barley

James Bower, President of the United Farmers of Alberta, says that the reciprocity agreement if it goes through, will mean the growth of the barley raising industry in Alberta. Hitherto no one has grown barley except for feed, for the simple reason that there has been no market,—now, a market is being created on the other side and barley raising will become a live industry in Alberta. This Province is particularly adapted for barley growing, so that this is an advantage which will be greatly felt. Mr. Bower also thinks that the tariff arrangement will be the means of further opening the American market to Alberta cattle and thus the cattle raising industry may be encouraged.

Alberta will also be invaded this spring by a colony of Norwegians, whose representatives visited the province last fall, purchasing some 3500 acres in the irrigation block, northeast of Gleichen, on which they will begin operations. The Norwegians look very favorably

upon Southern Alberta for the formation of a foreign colony and expect, once they make a beginning, to interest many of their countrymen at home.

The new hotel to be erected by the C. P. R. at Calgary will be a much larger building than most people anticipate and will be every bit as magnificent a hotel as the Royal Alexandra in Winnipeg and will cost the company about the same amount to construct it. This interesting information was given out by F. W. Peters, assistant to Vice-President Whyte, in an interview with The Vancouver Province.

380 Miles of Road  
Made in One Hour

If the political leaders of this province would do some real good for their fellows they might learn how by a perusal of the following:

A great piece of road building was completed in Iowa, when in the short space of one single hour a line of road 380 miles in length, and stretching entirely across the state of Iowa, was put in the most perfect condition of any road west of the Mississippi river.

And not the least interesting thing in connection with the tremendous piece of work is the fact that not a man of the entire 10,000 engaged on the work received one cent of wages. Goodwill and patriotism are responsible for the splendid showing.

Last winter the Iowa roads became so fearfully bad that traffic was practically killed, and farmers were compelled to remain in their homes. Finally, the matter became a political question and both parties got behind the movement. Governor Carroll called a good roads meeting at Des Moines early last March, and out of this meeting was evolved the plan of a river road, stretching from Council Bluffs on the Missouri river to Davenport on the Mississippi, a distance of 380 miles straight across the state from east to west.

"Make the river to river road as nearly perfect as is possible to make just common dirt," was the motto of the good roads convention.

Instead of appointing new committees to handle the work, the regular Republican and Democratic committees in each county through which the road would pass were appealed to. The chairmen of the committees of each party were asked to get in the game and work for the road. Everybody agreed to do so, and soon a rivalry was created between Republicans and Democrats, each to see which party would have the most workmen on the job.

Saturday was selected as the day, and from nine o'clock to ten o'clock the hour of work.

In the weeks preceding the work all bridges and culverts along the road were repaired and put in first class order, that no delay might come to the road builder.

The result of the organization was shown. Shortly before nine o'clock in the morning farmers began getting out in the road. Hundreds and thousands of plows, picks, shovels, road drags and other implements were brought along. Every farmer brought his team with him. Superintendents and overseers had been appointed in readiness.

And 10,000 determined men fell to. For an hour they continued working with might and main. At ten o'clock the job was finished, leaving Iowa the possessor of the finest piece of long distance roadway in the west.

NOTICE TO STEAM  
ENGINEERS

Notice is hereby given that an Examination will be held by J. E. Buxton, a duly appointed Inspector of Steam Boilers for the Province of Alberta, at—  
CALGARY, March 3 and 4, Public Works Office  
LANGDON, March 4, hotel  
STRATHMORE, March 12, hotel  
GLEICHEN, March 13, Palace Hotel  
BANKS, March 20, hotel  
at 9 o'clock a.m. for the purpose of giving engineers and apprentices an opportunity of qualifying for certificates under the provision of the Steam Boilers Act, 1906.  
Application Forms may be obtained on application to the Department or to the above-named Inspector, and must be properly filled out, witnessed, and declared before a Commissioner or Justice of the Peace, before an examination can be given.  
The full examinations will be discontinued.  
JOHN W. GIBB,  
Deputy Minister  
Department of Public Works, Edmonton, Alta.

Fear and doubt paralyze the will.

Love is the only true religion, and it never quarrels.

Evil deeds and thoughts are like chickens. They come to roost.

At one time there was no hanging for murder in Texas. Now that state has made it capital punishment for white slavers, who are convicted of a second offense.

**Shore By the Moh.**

A procession of the unemployed that took place in London 1914 did not meet with any great success or public sympathy. It was a sign of the times that those who were out of work and ready to distress their fellow citizens by law.

**The Arrow of St. Edmund.**

The legend of the death of St. Edmund was curiously corroborated in a paper of the London Times. The story goes that the martyr was tied to a tree and, as torture proved only availing to make him recant his faith, his body was covered with thorns. The tree at Rome to which he was said to have been bound and which was twenty feet in circumference fell in 1848, and (according to The Black Star) a piece of iron like an arrow head was found imbedded in the wood.

**Pitt and the Peasage.**

The English people's usual character of the English people is described daily and of set purpose by Pitt when he declared that every Englishman had a right to be a peer. In the case of the late Earl of Bessborough, he made a peer of second rank. He made a peer of second rank. He made a peer of second rank.
